WOOD'S CROP SPECIAL

Giving Timely Information and Prices of Seasonable Seeds

PUBLISHED BY T.W. WOOD & SONS SEEDSMEN RICHMOND VA.

Seed Grains of Special Merit

WONG BARLEY

SUNRISE BARLEY

IMPROVED LEE COLD PROOF OATS—Strain 5

FULGRAIN OATS—Strain 6

HARDIRED WHEAT

The above varieties of seed grain have been outstanding in official state tests throughout the eastern states. Yields obtained by the best and largest grain growers in Virginia and the Carolinas have proven their special merit as grain producers. This past season they have topped the list of all other varieties.

WONG BARLEY

There is probably no other grain crop that has increased in popularity so rapidly as Wong Barley. Yields obtained for the past two years have ranged from 50 to 65 bushels per acre. Its characteristics are erect growth, does not lodge as other barleys, mid-tall, stiff straw, semi-bearded and extremely resistant to smut and cold. It is a rather green, broad-bladed barley in its early growth, which makes it a fine grazing variety.

Mr. S. F. Grubbs, of the Virginia Crop Improvement Association, says: "It is as good as any barley I have seen grown in Virginia, and probably better. Have never seen any barley stand up as well. An exceptionally easy crop to combine."

SUNRISE BARLEY

A smooth, practically awnless variety, with a good production record of high quality grain. Resistant to mildew and during a five-year period, has the highest grain production record in North Carolina of any other variety in the coastal plain and Piedmont tests. Adaptable to all sections of the Carolinas and the Piedmont and coastal sections of Virginia.

EARLY SEED GRAIN ORDERS ADVISABLE

Continuous rains along the Atlantic coastal states from July 14th through the first week in August, damaged a tremendous quantity of grain generally used for seed purposes. The hardest hit was Abruzzi Rye, which was fully 75% destroyed and very limited quantities are available this season. Many fields of wheat, oats and barley were not harvested, particularly in Virginia and other northern states, and these crops will be difficult to save even for feed purposes.

All seed grain we offer was harvested before this wet spell of weather and is in A-1 sound condition, grown under contract from certified seed. We will have only limited quantity of Certified Seed grain to offer this fall, which varieties are quoted in this Crop Special.

Sow Crimson Clover During August and September.
A Fine Soil-Building Crop.

IMPROVED LEE COLD PROOF OATS Strain 5

A late maturing oat, exceptionally cold resistant. Made exceptional yields in North Carolina, Virginia, Maryland and Pennsylvania. One of the tallest growing winter oats, attaining a height of five feet, making one of the best oats for growing for green feed or silage. Our contract growers this year obtained yields as high as 90 bushels per acre.

FULGRAIN OATS—Strain 6

A short strawed, early maturing oat. Stands up exceptionally well and is outstanding in its yielding ability. Stiff straw, very storm resistant and ideal for combining. Remarkable uniformity in type and resistant to smut.

HARDIRED WHEAT

Fast becoming one of the most dependable of all types. In the official North Carolina test, 1943-1944, it led all other varieties in yield. These tests were comprised of eleven made in the Piedmont and sixteen in the Coastal Plain section. With our contract growers this season it outyielded all other varieties by a wide margin.

Our 1945 Fall Catalog Will Be Mailed About September 15th

WOOD'S SEEDS ARE TESTED

And we know that they will grow before they are sent out. Even then they occasionally do not come up, due to causes over which we have no control, such as covering too deeply or not deeply enough; too little or too much moisture, cold weather, insects, or a crust through which the sprouts cannot penetrate, etc.; therefore, T. W. Wood & Sons give no warranty, express or implied, as to the description (name and kind), productiveness or any other matter of any seeds, bulbs or plants we sell, and will not be in any way responsible for the crop. Our liability in all instances is limited to the purchase price of the seed.

CERTIFIED SEED GRAINS

We will have available Certified Wheat, Oats and Barley after bin inspections have been made. Prices of Certified varieties we can offer now are quoted in this Crop Special. More complete list in our fall catalog, which will be issued about September 15th.

We have grown this year approximately 3,500 acres of small grain under contract from Certified Seed. Seed grain offered in this Crop Special are the product of this acreage, together with other crops grown by most reliable grain growers.

Wood's Treated Seed Grains

99% or Better Pure—Over 90% Germination

All Seed Wheat, Oats and Barley quoted below are treated with New Improved Ceresan, which is one of the best known preventatives against smut and other diseases—besides greatly increasing the yield per acre of all small grains. Treating of seed grains is strongly recommended by all experimental stations and leading farmers as real crop insurance for better yields and higher quality grain produced.

Outstanding crops of seed grain are produced from Wood's Treated Seed Grains—They Are Dependable

SEED OATS	3-bus. bags, bu., 32 lbs.	30-bus. lots, per bu.	Per bu.
-----------	------------------------------	--------------------------	------------

Sow 2 bushels per acre.

WOOD'S IMPROVED LEE COLD PROOF, Strain 5		\$1.45	\$1.50
Certified		1.65	1.70

Highest yielding oat for grain, hay and pasture. Tallest growing and most winter resistant of all oats. Recommended for Piedmont and Mountain Sections of the Atlantic Coastal States.

WOOD'S FULGRAIN OATS		1.35	1.40
Certified		1.55	1.60

Best oat for grain production in Eastern Virginia and Coastal States. Early, hardy and disease resistant.

FULGRAIN OATS, Strain 6		1.45	1.50
Outstanding strain for grain production. Very storm resistant. Ideal for combining.			

WOOD'S IMPROVED WINTER TURF OATS. Not treated. Shipment early September..		1.70	1.75
--	--	------	------

SEED RYE	2-bus. bags, Bu., 56 lbs.		
----------	------------------------------	--	--

WOOD'S ABRUZZI RYE		2.75	2.80
Gives quicker growth, more winter coverage, earlier grazing and larger yields of grain than ordinary Rye.			

WOOD'S WINTER RYE		2.20	2.25
For winter cover crop. Used extensively by tobacco farmers.			

SEED BARLEY	2-bus. bags, Bus., 48 lbs.		
-------------	-------------------------------	--	--

WOOD'S BEARDLESS BARLEY		2.10	2.15
Certified		2.35	2.40

A true strain, highly popular in Coastal States for both grain and hay production.

SUNRISE BARLEY (Smooth)		2.30	2.35
-------------------------	--	------	------

An exceptionally heavy yielding variety. In state tests has outyielded all other varieties in Piedmont and Southern Section.

WONG BARLEY		2.45	2.50
Certified		3.20	3.25

A new barley of exceptional merit. Very heavy yielder, strong, stiff straw, highly cold resistant and resistant to smut. Semi-Bearded.

SEED WHEAT	2-bus. bags, Bus., 60 lbs.	30-bus. lots, per bus.	Per bus.
------------	-------------------------------	---------------------------	-------------

BEARDLESS VARIETIES:

WOOD'S REDHART		\$2.50	\$2.55
Certified		2.75	2.80

Heaviest yielding, most adaptable, earliest maturing wheat in the Coastal areas.

WOOD'S FORWARD		2.60	2.65
----------------	--	------	------

Best for Piedmont and Mountain Section.

WOOD'S LEAPS PROLIFIC		2.60	2.65
-----------------------	--	------	------

WOOD'S RED MAY		2.50	2.55
----------------	--	------	------

WOOD'S CARALA		2.55	2.60
---------------	--	------	------

Exceptionally hardy strain, more resistant to winter killing in the mountain sections

WOOD'S HARDIRED		2.55	2.60
Certified		2.80	2.85

Highest yielding wheat in four official North Carolina tests in 1943.

PURPLE STRAW—Certified		2.80	2.85
------------------------	--	------	------

BEARDED VARIETIES:

WOOD'S V. P. I. No. 131 WHEAT		2.55	2.60
-------------------------------	--	------	------

Heaviest yielding Bearded Wheat and fine for low ground.

WOOD'S FULCASTER		2.55	2.60
------------------	--	------	------

WOOD'S STONER		2.55	2.60
---------------	--	------	------

WOOD'S GRAIN PASTURE MIXTURE

Furnishes more grazing in less time and at less cost than any other fall crop. Includes every ingredient for continuous grazing throughout fall, winter and spring; highly recommended and used by leading farmers in the South. Contains the ideal proportions of Hairy Vetch, Austrian Winter Peas, Crimson Clover, Rape, Abruzzi Rye, Winter Barley, Winter Oats and Smooth Wheat. Sow 100 pounds per acre.

Not postpaid: 100-lb. lots, 7c. per lb.; 25 to 99 lbs., 7½c. per lb.; 5 to 24 lbs., 9c. per lb. Postpaid, 25 lbs., \$2.50; 10 lbs., \$1.25; 5 lbs., 70c.

WOOD'S HAY GRAIN MIXTURE

The best early hay mixture possible to sow. Contains Winter Oats, Smooth Wheat, Beardless Barley, Hairy Vetch, Austrian Winter Peas and Crimson Clover. Sow at the rate of 100 pounds per acre.

Not postpaid: 100-lb. lots, 7c. per lb.; 25 to 99 lbs., 7½c. per lb.; 5 to 24 lbs., 9c. per lb. Postpaid: 25 lbs., \$2.50; 10 lbs., \$1.25; 5 lbs., 70c.

Wood's Special Grass and Clover Mixtures

Sow 30 to 35 lbs. per acre.
